Citizenship by investment and international residency advisory
for individuals and families.

WHO WE ARE

Advice built around the person

A Dubai-based consultancy with a presence in Istanbul, serving clients who are considering second citizenship and international residency.

ABOUT US

Passport Gates helps individuals and families assess citizenship by investment and residency options against their goals, eligibility, family needs and investment plans. We guide each case from the initial discussion through document preparation, application coordination and follow-up.

OUR PURPOSE

To make complex cross-border decisions easier to understand, with careful preparation, clear communication and personal support.

WHAT WE DO

Two paths. One considered approach.

We begin with the outcome you want, then assess suitable routes and the conditions that apply to your case.

01 CITIZENSHIP

Citizenship by investment

Guidance on established Caribbean programs, including Dominica, Saint Kitts and Nevis, Grenada, Saint Lucia, and Antigua and Barbuda, alongside other selected options.

02 RESIDENCY

International residency

Advice on selected European residence routes, including qualifying investment and other lawful pathways, with family eligibility and ongoing requirements reviewed case by case.

HOW WE WORK

A clear process from first call to decision

The right pathway depends on nationality, background, budget, family composition and the rules in force at the time of application.

Every application remains subject to program rules, due diligence and authority approval.
